To whom it may concern,

It is with great pleasure that I recommend Liam Maloney who was employed as a student for Communications Security Establishment for the following three terms;

From May 1st, 2017 to September 1st, 2017

From May 7th, 2018 to August 24th, 2018

And from September 10th, 2018 to December 21st, 2018

During his employment, Liam was a respected team member in the Software Development Group, developing Java web-based business applications. As part of his responsibilities, Liam had to communicate with clients and developed software in relation with corresponding unit tests. With his high degree of ambition, Liam also prepared development documentation and user guides that will certainly remain very useful for the department. Throughout his employment, Liam was continuously flexible and willing to work on any project that is assigned to him as well as volunteered in other areas of his branch.

I am confident that the candidate's attitude and skills would make him a valuable contributor to any organization. Should you wish to discuss further, please do not hesitate to contact me.

Sincerely,

Mario Van Velzen
Manager, IT Projects
